To complete the cycle, you must upload one or more files in response to each part's requirements. The requirements for each part are described in the assessment guides and are also summarized in the submission specifications. Review these materials carefully as you complete your work and upload your files.

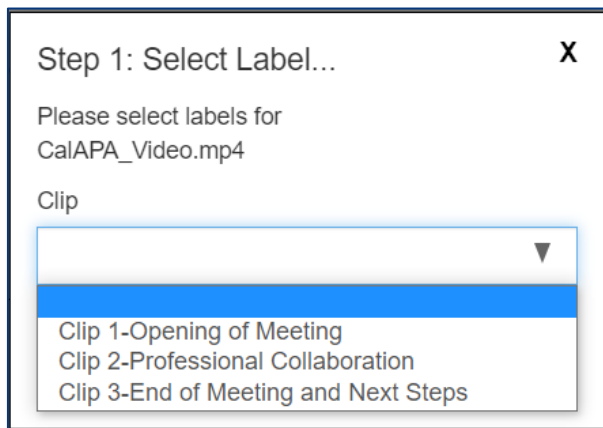

Uploading and Reviewing Files

1. Access the Submission Specifications, linked to in step 1 of the instructions panel. Review this closely to understand format specifications for each piece of evidence to be submitted.
2. Click the Upload File button, and locate the file on your local drive.

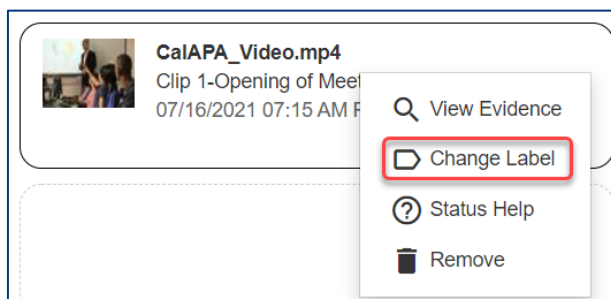

The time required to complete the upload process will vary depending on file size and your network speed.

3. Some parts require that you assign labels to your uploaded files. You will be prompted to select labels during the upload process.

Note that you will be able to change the label after the file is uploaded.

4. Review each file. Open and review every page of each document and play the entire length of each audio and video file to ensure they comply with submission requirements.

The screenshot shows a submission interface for 'Part C: Witten Narrative: Planning for School Improvement and Promoting Equity'. On the left, a sidebar lists four steps: 1. View supporting materials (with a link to 'Submission Specifications'), 2. Upload file, 3. Review file, and 4. Indicate completion. The main area shows the part title and a status toggle set to 'Not Ready'. A red box highlights an error message: 'You must review the highlighted file before you can mark this part "Ready to Submit."'. Below this, a file card for 'CalAPA_C1_S1_A_DataCollectionE...' is shown with a document icon and a red arrow pointing to the error message. The file card also displays the date '07/16/2021 07:18 AM PDT' and the status 'Ready'.

Note: When reviewing your video files, play the entire video to ensure that the video plays as intended with a single audio track that can be clearly heard by a scorer. Review “Recommended Equipment, Video Formats, and Settings” on the [program website](#) for information about what to do if your video has multiple audio tracks.

5. When you consider your evidence for a part complete, check Ready to Submit.

This screenshot shows the same submission interface as the previous one, but the status toggle is now set to 'Ready'. The 'Ready' button is highlighted with a red box. The file card for 'CalAPA_C1_S1_A_DataCollectionE...' remains below, showing the same date and 'Ready' status.

If you later decide you want to make additional updates to the part, you can uncheck Ready to Submit any time prior to submitting your work for scoring.

Ensure Your Submission Is Scorable

A fully scorable cycle is one that can be reviewed by a scorer and have scores assigned to all rubrics. Before you submit your work, review the [Submission Requirements](#) and confirm that all of your submitted materials meet these requirements for a scorable cycle.

Documents. Ensure that you review every page of each document. Confirm that the document in the system is complete and conforms to the directions in the assessment guide and the guidelines in the [Submission Requirements](#).

Videos. When reviewing your video files, play each file completely.

If the audio is not completely clear throughout, video captioning may be used as a method to provide a transcript of any audio track that may be difficult to hear or understand. As with written transcripts, the use of video captioning is permitted only to clarify for a scorer what is being said in the video recording and cannot be used to enhance the video recording with additional content.

Your videos should use a single audio track. If you used multiple microphones and multiple audio tracks were created when recording the video, review "[Recommended Equipment, Video Formats, and Settings](#)" for information about what to do if your video has multiple audio tracks.

Audio files. Be sure to listen to any audio files that you uploaded. Play each file completely and ensure the audio is clear throughout.

Submit Your Cycle

Note: Be sure to allow yourself adequate time before your planned submission date to upload and review your files in the ePortfolio system and to complete the submission process for scoring.

Readiness Checklist

Before submitting, make sure your submission is complete and ready for scoring. Have you:

- ✓ Signed in to the Pearson ePortfolio system?
- ✓ Stored a copy of all evidence in a secure local location, including your exported annotations?
- ✓ Uploaded all of the required files into the system?

- ✓ Reviewed all evidence within the system?
- ✓ Reviewed the [Submission Requirements](#) and confirmed that all files meet these requirements for scorable work that can be reviewed by a scorer and have scores assigned to all rubrics?

If you are ready to proceed, click Submit.

Pre-Submission Questions and Submission Agreements

When you click the Submit button, the system will require you to:

1. Answer a set of pre-submission questions related to the support you received from your program.
2. Consent to a set of Submission Agreements. These agreements are available for your review before you submit your cycle on [the program website](#).

After you have completed those steps, you may then submit your cycle for scoring.

The system will confirm that your cycle has been submitted.

Remember: After you have submitted your cycle, you will no longer have access to your files within the ePortfolio system.
